OBJECTIVE

I am a results-oriented Full Stack Web Developer with practical experience in various programming languages and frameworks. My proficiency extends to JavaScript, Node.js, CSS, jQuery, HTML5, AJAX, HTML, PHP, React.js, Python, TypeScript, and Bootstrap. With expertise in both front-end and back-end development, including working with databases such as MySQL, SQL, and MongoDB, I am well-equipped to handle diverse project requirements. I have also gained valuable experience in utilizing Amazon Web Services (AWS) for developing efficient cloud-based solutions. Committed to staying updated with the latest industry trends, I am dedicated to delivering exceptional results. I am excited to contribute my skills and join a dynamic and innovative team.

EDUCATION

Bachelor of Computer Application , Presidency College	2020 - 2023
Primary to Senior Secondary School , Bardsley Senior Secondary School	2006 - 2020

EXPERIENCE

Full-stack Web Developer (Freelance)	Mar 2022 - Aug 2022
Tech arts private limited	<i>London, England, United Kingdom (Remote)</i>

- Developed and deployed web applications as a full-stack web developer.
- Utilized HTML5, CSS3, JavaScript, React.js, Node.js, Solidity, and Python in projects.
- Created Discord bots using Python and Node.js and gained experience in Ethereum and Solidity.
- Proficient in Agile Project Management, jQuery, Bootstrap, and writing optimized SQL queries for MySQL and MongoDB databases.

VOLUNTEER EXPERIENCE

Core Team Member - TECHNOZIA	Sep 2021 - Aug 2022
-------------------------------------	---------------------

- Ensured smooth execution of various events by overseeing timing and coordination of tasks on the day of each event.
- Collaborated with a team of volunteers to meticulously plan and execute successful events.
- Demonstrated strong leadership and organizational skills while working under pressure.
- Contributed creative ideas and suggestions to enhance the overall event experience for participants and attendees.
- Maintained effective communication with event stakeholders, sponsors, and participants.

President - TECHNOZIA	Aug 2022 - Present
------------------------------	--------------------

- Entrusted with managing human resources, planning events, and overseeing their successful execution on the ground.
- Developed and implemented marketing strategies resulting in increased event participation.
- Demonstrated strong leadership skills by effectively delegating tasks and ensuring optimal team performance.
- Enhanced communication and teamwork abilities while working with a diverse group of volunteers.

PROJECTS

SwiftMarket

- Developed **SwiftMarket**, an online buying and selling platform with various features:

- User registration, product listing, and product index-based search.
- Shopping cart, order placement, and payment processing.
- Ban system, product recommendation system, and seller dashboard.
- Ticket management system and multi-factor authentication (MFA) system.
- Implemented functionalities for seamless user experience and efficient product management.

NFT Mint Page in Minutes

- Created **NFT Mint Page in Minutes**, a state-of-the-art platform for minting NFTs.
- Integrated the Third-Web library to provide secure wallet management and seamless blockchain contract integration.

CERTIFICATES

AWS Certified Cloud Practitioner Issued by Amazon Web Services (AWS). ([View Certificate](#))

Be A DevOps Pro Issued by iNeuron.ai. ([View Certificate](#))

Getting Started with Kubernetes Issued by LinkedIn. ([View Certificate](#))

React(Basic) Certificate Issued by HackerRank. ([View Certificate](#))

SKILLS

Technical Skills:

- Front-end frameworks
 - HTML
 - CSS
 - JavaScript
 - React.js
- Back-end frameworks
 - Node.js
- Other
 - AWS
 - Blockchain
 - DevOps principles

Soft Skills:

- Strong problem-solving abilities with great attention to detail, ensuring accurate and effective solutions
- Excellent communication skills, promoting teamwork and collaboration by listening actively and expressing ideas clearly
